

My Solar System Booklet

Name: _____

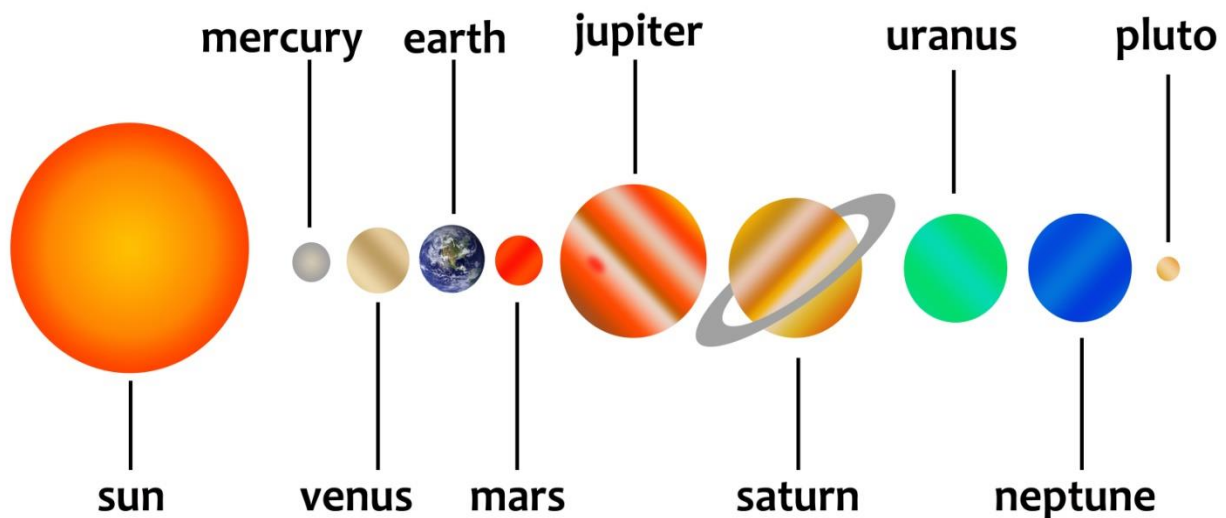

Image: <http://clipart-library.com/solar-system-clipart.html>

Discover Your Own Planet

You have discovered your first planet on your mission in outer space. Complete your mission report back to send back to Earth. Give details about your discovery!

Name of Planet: _____

Draw Your Planet

Key Facts

Size:

Does it have Rings (yes or no)

Number of moons:

Inhabitants

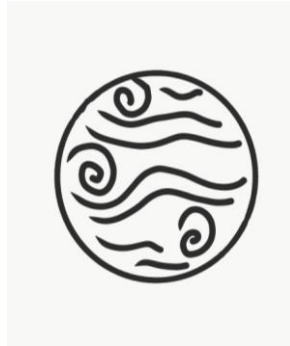

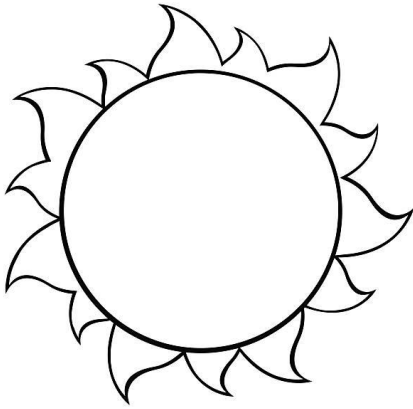

(People who live there)

Surface (Mountains, Oceans):

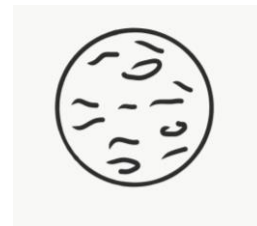

Signs of life (water, Oxygen)

Mixed Up Solar System

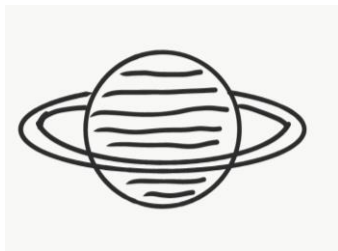

Directions: Someone mixed up the planets of the solar system. Can you help number them in the correct order below. Don't forget to color them as well!

Venus

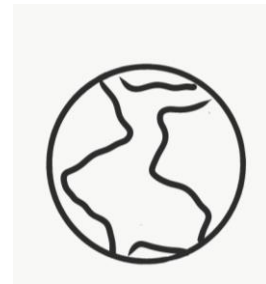

Mars

Neptune

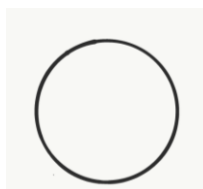

Jupiter

Earth

Mercury

Uranus

Saturn

Sun, Earth and Moon Descriptions

Place the phrases given below in the correct category. Some phrases may describe more than one.

SUN

EARTH

MOON

- Has atmosphere
- Is made of gas
- Has water
- Is a sphere
- Rotates
- Produces Light
- Has Gravity
- Has craters
